School Retirees' Gratuity Ceremony

On the occasion of International Workers' Day, which coincides with May 1st of each year, the school celebrated this event by giving a friendly reception to the honor of the workers as well as the retirees of the school.

Erasmus + project monitoring session (CBHE)

On May, 19th, 2019, the National Erasmus + Offices (NEO Algeria) conducted a monitoring visit of the CBHE QUALS project within the ENSH. The work of the meeting focused on the state of progress, as well as guidelines and recommendations in order to achieve project objectives.

The Algerian partners which took part in this meeting in addition to ENSH are the National School of Biotechnology of Constantine (ENSB) and the National School of Agronomics of Algiers (ENSA).

House of Entrepreneurship

The ENSH organized open days on Innovation and Entrepreneurship on 28, 29 and 30 May 2019, for the benefit of the students of the school, in the presence of our partners:

- ♦ National Youth Employment Support Agency (ANSEJ)
- ♦ The National Micro Credit Management Agency (ANGEM)
- ♦ The National Employment Agency (ANEM)
- ♦ Center for Support and Advice (CAC) of the Agency for SME Development and Promotion of Innovation (ADPMEPI).

The organizers of this event provided guidance and advice needed to be able to follow the entrepreneurial training for the 2019-2020 academic year.

Board of Directorate

A regular meeting of the Board of Directorate was held on 29 May 2019 at the school under the chairmanship of Prof. ABADLIA M.Tahar, in the presence of representatives of different ministerial sectors and elected members, the agenda was as follows:

- Presentation of the 2020 operating and equipment budget project.
- Review of educational activities, continuing education, external relations, post-graduation and entrepreneurship training for the 2018-2019 academic year.

Mobilities of doctoral students for internships abroad

Study Day on water Transmitted diseases (MTH), June 20th, 2019

The ENSH, in collaboration with the Thematic Research Agency in Science and Technology (ATRST), organized a study day on the risks of water pollution and the MTH.

This day brought together university researchers as well as experts and officials representing the directorates of public health, water resources, agricultural services of the wilayas of Algiers, Blida and Tipaza as well as water institutions ADE and SEAAL and the water resources agencies: ANRH and AGIRE.

The morning's work was devoted to studying the risks of pollution of surface and underground water, drinking water quality standards and health risks and diseases. The theme of the afternoon was reserved for the means of preventive and curative control to be implemented to eradicate the risk of occurrence of epidemics related to water.

At the end of the day's work several recommendations were raised aiming at improving the monitoring of water quality and increased the prevention of diseases caused by water.
