Theme: 5th Colloquium of the French-speaking Association of Physical Geography, from 18th to 22th September 2019, University of Liège, Belgium.

Radio Programmes

On 23/09/2019, **Dr. AMMARI Abdelhadi** and **Mr. YAHIAOUI Samir**, participated at the NATURE Pulse radio programme on "Treated wastewater reuse for irrigation" (Mitidja Blida radio).

Seminar "Use of treated wastewater for irrigation"

As part of the Erasmus + European cooperation program, the ENSH in collaboration with the Vytautas-Magnus University and the Estonian University of Life Sciences, organized on 25th September 2019, a seminar on the Use of treated wastewater for irrigation. This day brought together many experts from Algeria and abroad.

During this technical day, various participants agreed on the imperative development of processes allowing the use of treated water reuse for irrigation in order to ensure water saving. The Director of School **Pr. M.K.MIHOUBI** justified this alternative by using in the agricultural sector with more than 60% of conventional water resources".

"Out of a total of 700 million M3 of treated water / year, only 150 million M3 are used in agricultural irrigation despite the considerable efforts made by the State to develop the sector, particularly through the construction of 130 water treatment plants, nationwide".

House of Entrepreneurship

In collaboration with the National Youth Employment Support Agency (ANSEJ), the school organized, on September 26th, 2019, an information day for the benefit of the students of the school. The organizers of this event provided guidance, advice needed to be able to follow the entrepreneurial training for the academic year 2019-2020.

Access to higher schools for the academic year 2019-2020

As a test center, on September 30th, 2019, the ENSH organized a contest for access to the various National Higher for 78 student candidates in the second year of the preparatory classes.
