Ceremony of the academic year closure

On the third of July and on the occasion of the academic year closure (2016-2017), the Higher National School of Hydraulics organized a ceremony of gratification of the best students of the year, the teachers promoted to higher ranks, as well as former directors of the school in the presence of representatives of various Ministries and partner institutions of the School.

Gratification of the first Graduate prize winner

Miss OUABED Yasmine, Development and Hydraulic Engineering option (AGH) (best average with A degree).

Handing-over of the diploma by Professor YUCEF ETTOUMI Fatiha national coordinator of the mixed network of schools (RME)

Grants abroad for the academic year 2016-2017

- The Grant of excellence offered by the French government to **Miss OUABED Yasmine** to the University of Southern Paris (Paris Saclay).
- Two grants within the framework of the RME to the students : **SADEG Selma et KORTBI Zaki**
- Two grants within the framework of the convention ENSH - IAM Bari of Italy to the students : **BELKACEMI Bouchra et BOUAROUR Ouiza**

Gratification of the best entrepreneurship project

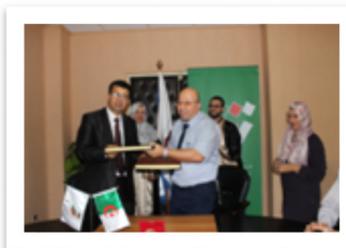

Among the four projects of the fifth promotion adopted in 2017, the best project of entrepreneurship was decreed to the project **CHARBOLIVE** proposed by the following students:

- **BELKALEM Sofiane** (idea carrier)
- **OUABED Yasmine**
- **AITTOUARES Riadh Faiz**
- **CHEKIRED Selma**

Cooperation agreement (ENSH - ANSEJ)

On the 3rd of July, 2017, the Higher National School of Hydraulics concluded a cooperation agreement with the National Agency of Support for the Employment of Youth of Blida whose objective is to settle an incubator dedicated to water economy and environmental protection. This agreement will have a role in the accompaniment of new innovating projects.

*Pr.M.K. MIHOUBI, ENSH director
Mr. M. BENAOUZOUZ, ANSEJ director*

Open Doors 2016 - 2017

The Higher National School of Hydraulics organizes "open doors" for new high school graduates from the 26th of July to the 5th of August, 2017 at the Amphitheatre of the School .

The aim of these "open doors" is to inform the students about the various study options and trainings existing at the school, as well as the conditions of access.

- Students in graduation : 645
- Students in preparatory classes : 103
- graduate Students PFE (June session) : 43
- Teaching staff : 60
- Pedagogical laboratories : 12
- Research Laboratories : 02
- 1- Mobilization and Valorization of the Water Resources laboratory (MVRE) : 44 researchers**
- 2- Water engineering and Environment (GEE) : 32 researchers**

BRIEFS

The Will : a challenge that counters any obstacle

This motto is that of a discrete but remarkable woman who knew how to circumvent the various obstacles

of life while arming herself with an exceptional will.

The life was not always easy for this woman, however, she has decided to resume her studies and has obtained her study competence certificate with high degree lately. This year, she has also passed the baccalaureate exam.

Facing so much efforts and courage, we can only express to her our sincere feelings of regard and support and finally wish her success at the baccalaureate, she deserves it.

This Great lady works at our School as a maintenance woman.

Mrs. Lamia Mustapha Respect, Respect and Respect.

L.MELOUAH
