FIE/ENSH

As part of the Entrepreneurial Engineer Training program (FIE_DZ), a second defense was organized on July 1st, at the school to designate the best project for the 2020/2021 academic year. The winner projects are:

- 1-Tesshila, ENSM.
- 2-Aqua-You, ENSH.
- 3- Healthy meal today, ENSSEA

Participation of teachers in scientific events

* Four communications were presented during the 4th International Conference of the Future of the Great Rivers of the World which was held online from 03rd to 06th August 2021 in Moscow (Russia):

- 1) Flow prediction using future scenarios in the Chélif watershed, North-West Algeria: Case of the sidi Mhammed Ben Aouda dam (ZAIBAK I, MEDDI M, MAHE G).
- 2) Contribution to the study of low water levels in northwestern Algeria with the help of the IEB (TOUMI S, MEDDI M).
- 3) Relationship between hydrological variability and climatic fluctuations in the Chellif basin (KHEDIMALLAH A, MEDDI M, MAHE G).

4) Evolution of the sedimentary dynamics of western Chellif, Algeria (HADOUR A, MAHE G, MEDDI M).

Research projects
On July 28th, 2021 Dr DJOUDAR D H, participated in a coordination meeting relating to the project "Control and evaluation of treated wastewater in agriculture and implementation of a real-time monitoring system "within the framework of the Algerian-Tunisian cooperation.

Ordinary Session of the ENSH administration Board

An ordinary meeting of the administration board was held on July 13, 2021 at the school's headquarters under the chairmanship of Prof. BENZINA M, in the presence of representatives of different Ministerial sectors and elected members. The agenda was as follows:

- Presentation of the 2020 operating and equipment budget project.
- Review of educational activities, continuing education, external relations, post-graduation and entrepreneurship training for the 2020-2021 academic year .

Signature of agreement

Two framework agreements were signed between Djilali Bounaama Khemis Miliana University, Saad Dahlab University in Blida and the National School of Hydraulics. The object of the agreement relates primarily to the promotion of scientific and educational cooperation, the exchange of people, experiences and activities in fields concerning higher education and scientific research.

Visit of the national channel

The team of national channel realized on July 07th, 2021 a report on the problem and the development prospects for water resource management in Algeria, with the participation of doctoral students and teachers-researchers from the school.

Meeting with the media

On June 17th, 2021, Prof. MEDDI Mohamed was interviewed by the Horizon press, on " the causes of désertification in Algeria".
On June, 29th, 2021, Dr. DJOUDAR Dahbia, participated in the international channel 2 on the theme "the water problem in Algeria".
