Final registrations for the 2022-2023 academic year

During the period from 05th to 09th of September, 2022, the administrative and pedagogical staffs have organized the registration process for the new students at the National Higher School for Hydraulics. The operation took place in

ERASMUS+ International Cooperation Program

As part of the international cooperation program, *Capacity Building in the Field of Higher Education Projects - ERASMUS+*. A working session was held in the presence of the project's staff on September 14th, 2022, under the supervision of the director and the mission *Mr. Antanas Maziliuskas*. During this meeting, the files of this program were discussed.

Solemn opening ceremony of the 2022-2023 academic year

The ENSH organized the solemn opening ceremony of the 2022-2023 academic year on September 17th, 2022, in the presence of local authorities, directors of university residences, administrative staff, teachers and students. The ceremony began with the welcome that the Director reserved for the audience, giving an overview of the different disciplines and training courses at the school. The ceremony ended with an interesting discussion on a lecture entitled *"The responsibility of the university for future generations."*

The visit of the delegation of the Czech Republic

On September 21st, 2022, the Director received a delegation from the Czech Republic consisting of experts and representatives of Czech academic institutions and companies, specializing in sanitation, and water treatment and purification. The meeting was held in the presence of the administrative staff of the school.

General meeting

As part of bonding with employees and workers and listening to their professional and social concerns, a General Assembly was held on September 22nd, 2022. It was chaired by the Director of the School, in the presence of the Secretary General, the assistant director of Personnel. The director opened the session with a speech where he thanked the staff and workers, in particular for their great efforts made during the period of the Corona pandemic. He also underlined the role of dialogue between all parties to ensure the proper functioning of the institution. Then, all the concerns raised by the staff were heard and answered in accordance with the precepts of applicable laws and regulations.

The inspection visit of Mr. Haj

KAMLI (M.H.E.S.R.)

The Director and the administrative and pedagogical staff received *Mr. Haj KAMLI*, Inspector at the Ministry of Higher Education and Scientific Research, who made an inspection visit to the National Higher School for Hydraulics during which he visited the different pedagogical infrastructures of the school.

Meeting of the Board of Directors

On Wednesday October 5th, 2022, an extended meeting of the School Council was led by the Director of the National School of Hydraulics in the conference room, during which he met with the pedagogical and administrative staff of the school, in order to discuss all the pedagogical and administrative questions related to the 2022-2023 university entrance.

The audio-visual conference held by Mr. LABADANE Yassin

On Sunday October 09, 2022, the ENSH's students were invited to attend a videoconference on "river development and flood protection". This conference was presented by Mr. *LABADENE Yacine* (former student of the school), an engineer specializing in river works and protection against flooding.

Administrative meeting with second-year student representatives

On Monday, October 10, 2022, a meeting was held, under the supervision of the school Director, *Dr. Abdelhamid HEBBOUCHE* with the teaching staff and the student representatives of the second year of the second cycle. During this meeting, the legal text of diplomas issued by schools has been explained and most of the students' questions related to the topic had been answered.
